

Microsoft® Business Solutions Human Resource Management–Great Plains®

Payroll Connect

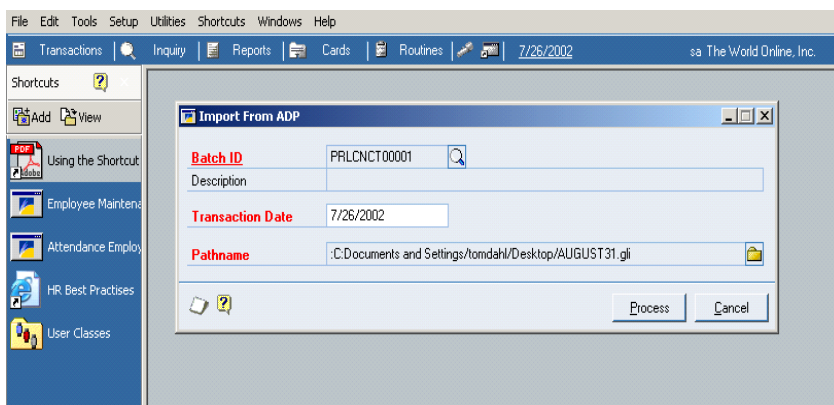

Payroll Connect is the right solution for U.S. businesses using both Microsoft Business Solutions and ADP PC/Payroll for Windows. This integrated solution helps improve operational efficiency and cost-effectiveness by connecting General Ledger with information from ADP. Not only will using Payroll Connect save you time and ensure accurate data, your company will also benefit from the leadership and expertise of ADP and Microsoft Business Solutions.

Microsoft Business Solutions and ADP help you get connected

If your business practices include contracting externally for payroll processing, Payroll Connect can make it even easier to outsource your U.S. payroll with ADP. Using Payroll Connect, you will eliminate the time it takes to enter data manually or to create and run an import configuration. Payroll Connect is preconfigured to import summary payroll transaction data from ADP PC/Payroll for Windows (also requires ADP General Ledger Interface and Super Data Access) into General Ledger seamlessly and effortlessly.

Payroll Connect makes updating General Ledger with information from ADP PC/Payroll for Windows easy and accurate. By transferring payroll information using a product that's already configured for the ADP PC/Payroll for Windows file format, you eliminate manual data entry reducing errors and saving you time. Because ADP and Microsoft Business Solutions have worked closely to provide this solution, you can be confident that Payroll Connect meets both ADP's approval and quality standards of Microsoft Business Solutions. And of course, a partnership between Microsoft Business Solutions and ADP ensures that your business solutions are backed by high-quality service from service leaders.

An easy, seamless connection: When you receive your payroll information from ADP, simply transfer the summary payroll transaction information into General Ledger and review the transactions prior to posting. Payroll Connect seamlessly connects your payroll and general ledger systems quickly, easily and accurately. Reduce data entry. Eliminate errors. Increase efficiency.

Payroll Connect makes transferring payroll data easy. Create a General Ledger batch automatically from the ADP PC/Payroll for Windows file with a click of the mouse.

Microsoft Business Solutions Human Resource Management–Great Plains

Data accuracy ensured: Using Payroll Connect you won't have to worry about data entry errors because once the batch is transferred and you've reviewed the transactions, your information is automatically updated in General Ledger with a simple click of the mouse.

Co. ID	Account	Debit	Credit
	Description		Exchange Rate
	Distribution Reference		Corresp Co. ID
TW0	000 -2170 -00	\$0.00	\$22,100.75
	Federal Withholding Payable		0.00000000
	ER SOCIAL SECURITY		
TW0	000 -2170 -00	\$0.00	\$21,900.00
	Federal Withholding Payable		0.00000000
	ER MEDICARE		
	Total	\$1,718,783.40	\$1,718,783.40
	Difference		\$0.00

Using the General Ledger Transaction Entry window, you can review payroll information prior to posting to General Ledger, ensuring data accuracy.

Technical expertise not required: Payroll Connect is a turnkey solution. This means you won't need to learn how to configure files to bring data from PC/Payroll for Windows into General Ledger.

From an alliance you can trust: Payroll Connect not only improves your business processes, but you can be confident that your business solutions are backed by two companies committed to service leadership—Microsoft Business Solutions and ADP.
